BRIEF OVERVIEW / CAREER OBJECTIVE / SUMMARY

I am a fresher software engineer pursuing my B.Tech in Computer Science and Engineering from MITAOE. I have worked on various projects during my college days which has helped me develop my skills in the field of software development and testing. I am looking forward to work on challenging projects and hone my skills further.

KEY EXPERTISE / SKILLS

Python Javascript ReactJS NodeJS Data Structures DBMS CPP REST Git Github

EDUCATION

MITWPU - Faculty of Engineering	2019 - 2023
B.Tech. - Computer Science & Engineering - MITAOE | CGPA: **8.40 / 10.00**	
Javahar Navodaya Vidyalaya Navsari Amravati, Amravati	2018
12th | CBSE | Percentage: **84.40 / 100.00**	
Jawahar Navodaya Vidyalaya Navsari Amravati, Amravati	2016
10th | CBSE | Percentage: **92.60 / 100.00**	

INTERNSHIPS

Celebal Technologies
FrontEnd Web Developer
June 1, 2022 - July 31, 2022

Key Skills: ReactJS Redux APIs

PROJECTS

Spam Review Filter
Team Size: 3
Jan. 3, 2022 - April 20, 2022

Key Skills: ReactJS Django TextBlob Vercel SQL

Detect and delete spam/fake reviews.
A web application which removes the spam and fake reviews according to the algorithm which we have build, Sentiment analysis is done to analyse sentiment of review, backend is done in django and reactjs is used for frontend.

Crop-Disease-Prediction
Mentor: Mayura Kulkarni \| **Team Size:** 4
Dec. 16, 2021 - April 9, 2022

Key Skills: Flask Deep Learning Keras API

Detect diseased crop
Web application to detect the given image of the crop is diseased or not.
For frontend Flask is used and Resnet152v2 a Keras model is used for image classification.

AI-Tools
Team Size: 2
Feb. 22, 2022 - Feb. 23, 2022

Key Skills: HTML5 CSS Javascript ReactJS Vercel Cellstrat APIs

- AI Tools is a platform where users may use various AI services.
- AI Services were provided by Cellstrat Hub
- The project earned the hackathon's top prize

ACHIEVEMENTS

- Winner In CellStrat AI domain (Hacktahon)
- Secured All India Rank 48 in NCAT(National Creativity Aptitude Test) 2021
- 5 Stars in programming (Python, C++, JavaScript) on HackerRank

ASSESSMENTS / CERTIFICATIONS

Front End Development Libraries

Key Skills: ReactJS   Redux   Sass

With this certification, I received practical ReactJs training. Along with React, I also learned about Redux and SASS. My projects gave me the opportunity to learn how to develop a project from scratch and to discover additional amazing React community resources like Material UI, Mantine, React Router, etc.
Certification Liink: https://freecodecamp.org/certification/sarangwadode/front-end-development-libraries

Javascript Algorithms and Data Structures

Key Skills: Algorithms   Data Structures   ES6   OOPs   Debugging

- Gained knowledge of various data structures and algorithms, Object Oriented Programming, and ES6 features.
- Acquired knowledge of various debugging methods
- Learned about powerful regex
- built data structures and algorithms from scratch
Certification Link: https://www.freecodecamp.org/certification/sarangwadode/javascript-algorithms-and-data-structures

Back End Development and APIs

Key Skills: Npm   Node.js   Express   MongoDB   APIs

- Acquired backend development skills using the Express web server
- Connected expressJs and MongoDB
- Developed APIs that let applications connect to the backend.
Certification Link: https://www.freecodecamp.org/certification/sarangwadode/back-end-development-and-apis

Responsive Web Design

Key Skills: HTML   Javascript   UI Development   UX Design

- Constructed a number of projects to polish front-end skills
- Investigated the figma platform for design purposes
- Designed the frontend with the user's experience in mind
